Guide Tools Overview

Prenda makes it easy for you to implement and manage an empowering, student-centered learning experience.

Here's how we do it.

It all starts with a...

Prenda World Account

Prenda World is your digital microschool management platform. All the tools and resources Prenda provides are available to you via Prenda World.

As a guide, you never pay Prenda for anything. All of the tools we offer you are included for every student using the Prenda platform.

Next, it's time to start...

Professional Development

Whether you're new to education or a seasoned educator, we'll walk you through setting up and running your own microschool. Basic guide training is online, self-paced, and can be completed in a few days. Additional opportunities to learn and grow are offered all year long, both virtually and in person.

“Prenda gives guides the tools and the vision to support their students in taking charge of their own education.”

–Nancy, Prenda Guide

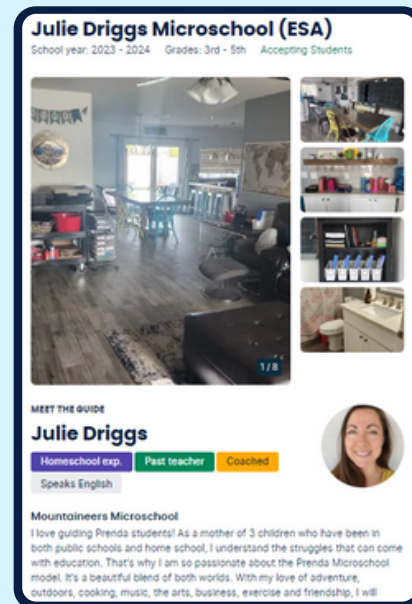

Now we'll build your...

Microschool Profile

Create a professional online presence with Prenda World's microschool profile builder. Set a custom URL for your page, add pictures, and tell the world about your microschool!

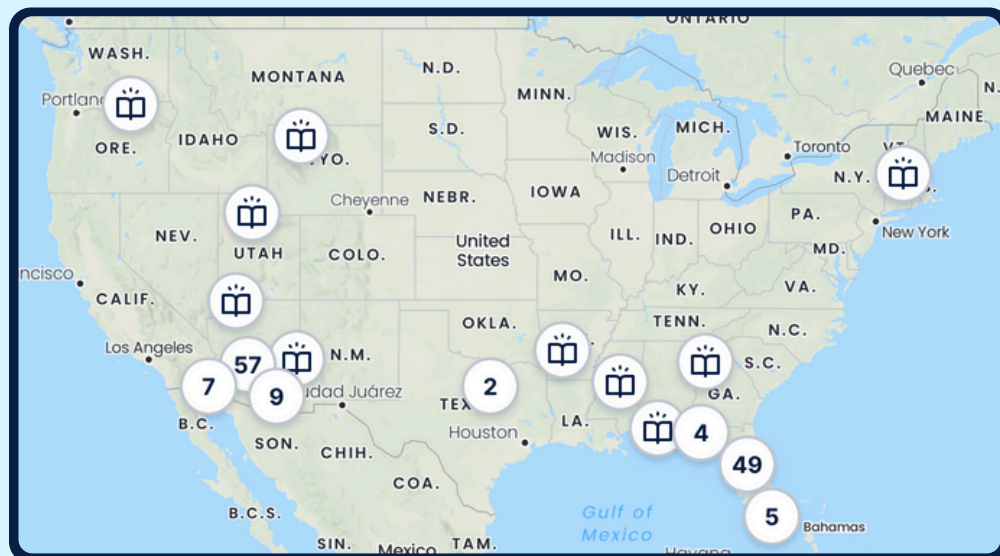

As you start to recruit students for your class, you can share your profile with friends and parents.

Post your profile on the...

Prenda Microschool Map

Increase visibility to your microschool by sharing your profile on the microschool map so parents seeking microschools in your area can find you!

Spread the word with...

Personalized Marketing Tools

Add your personal information, pictures, and microschool info and share with your community! Generate a QR code and add it to your marketing materials so more information about your microschool is easy for interested parents to find.

You only need 2 students to get started. We suggest shooting for between 5-10 total students, but you can work up to that over time.

"Prenda helps me create and deliver the education parents want for their kids. From individual support in core academics, to developing collaborative skills, to creative pursuits, Prenda is there to help."

-Denise, Prenda Guide

Alright, let's...

Invite Students

Once you find a few families who want to join your microschool, it's easy to manage enrollments in Prenda World.

Send each student an invitation from your guide portal; parents simply accept your invitation to register with you. This allows you to keep track of student information all in one organized place.

Easy. Peasy.

Then we'll help you set up your...

Business Backend

Prenda's microschool management platform includes tools that help you with administrative tasks like taking daily attendance, setting up your yearly calendar, ordering learning materials, and referencing student info with ease.

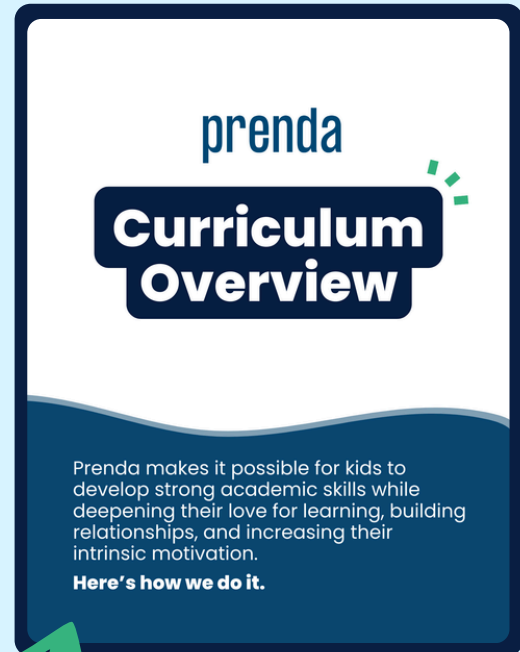

We'll also handle invoicing and the payment process for all your families and provide helpful guidance on other logistical business questions (like insurance and funding options). You'll decide how your microschool will be funded (either out-of-pocket direct-pay or a state scholarship program), and we'll set everything up for you.

Now let's talk...

Curriculum

Prenda provides both proprietary and subscription-based K-8 curriculum options that allow you to offer a personalized experience to each of your students without any overwhelming lesson planning or grading. Our mastery and inquiry-based learning approach has a proven track record of helping kids develop strong academic skills and fall in love with learning.

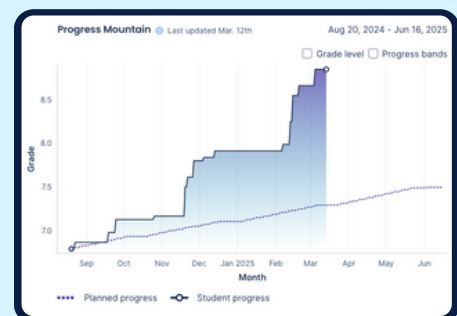

Prenda's curriculum is student-centered, hands-on, and FUN. To view examples and a full explanation of Prenda's curriculum, check out our Curriculum Overview!

We also help with...

Progress Tracking

At Prenda, students are measured against the goals they set for themselves, reminding guides, parents, and students that everyone is running their own race. Help your students set personalized academic goals and track their progress so they can be accountable to their personal vision and purpose.

And don't forget about...

Support

As soon as you start your Prenda journey, you'll be connected to your personal microschool specialist, who can answer questions and help you get started. You'll also have a guide coach and year-round access to our support team of experienced educators who can help you with anything from technical issues to behavior or academic assistance for your students. We've got your back.

Last, but not least, our amazing...

Guide Community

You'll have exclusive access to our supportive, vibrant, online guide community. Connect with the Prenda team and other Prenda guides to trade tips, problem solve, and grow.

What do I do now...?

Create a free Prenda World account and find out if guiding a microschool is a good fit for you! We've helped over 1,000 parents, homeschoolers, and teachers start microschools in their homes and communities. **You can do it. And we can help!**
